PRAXI Intellectual Property is specialized in Industrial and Intellectual Property and provides services related to trademark protection, patents, utility models, designs and copyrights.

These services include the analysis, filing, prosecution, granting and management of documents, anti-infringement actions and economic-financial valuations of intangible assets.

The identification and valuation of intangibles allows the safeguarding of strategic corporate assets. PRAXI Intellectual Property is a reliable partner for the protection and development of such assets.

A reliable partner for the protection and development of your assets.

Valuable multidisciplinary capabilities

PRAXI Intellectual Property benefits from the diversified expertise and specialization of PRAXI SpA, both locally and at the international level.

The experience gained on international projects has been consolidated into an in-depth understanding of international law, ensuring that Clients receive global support in the protection of their rights.

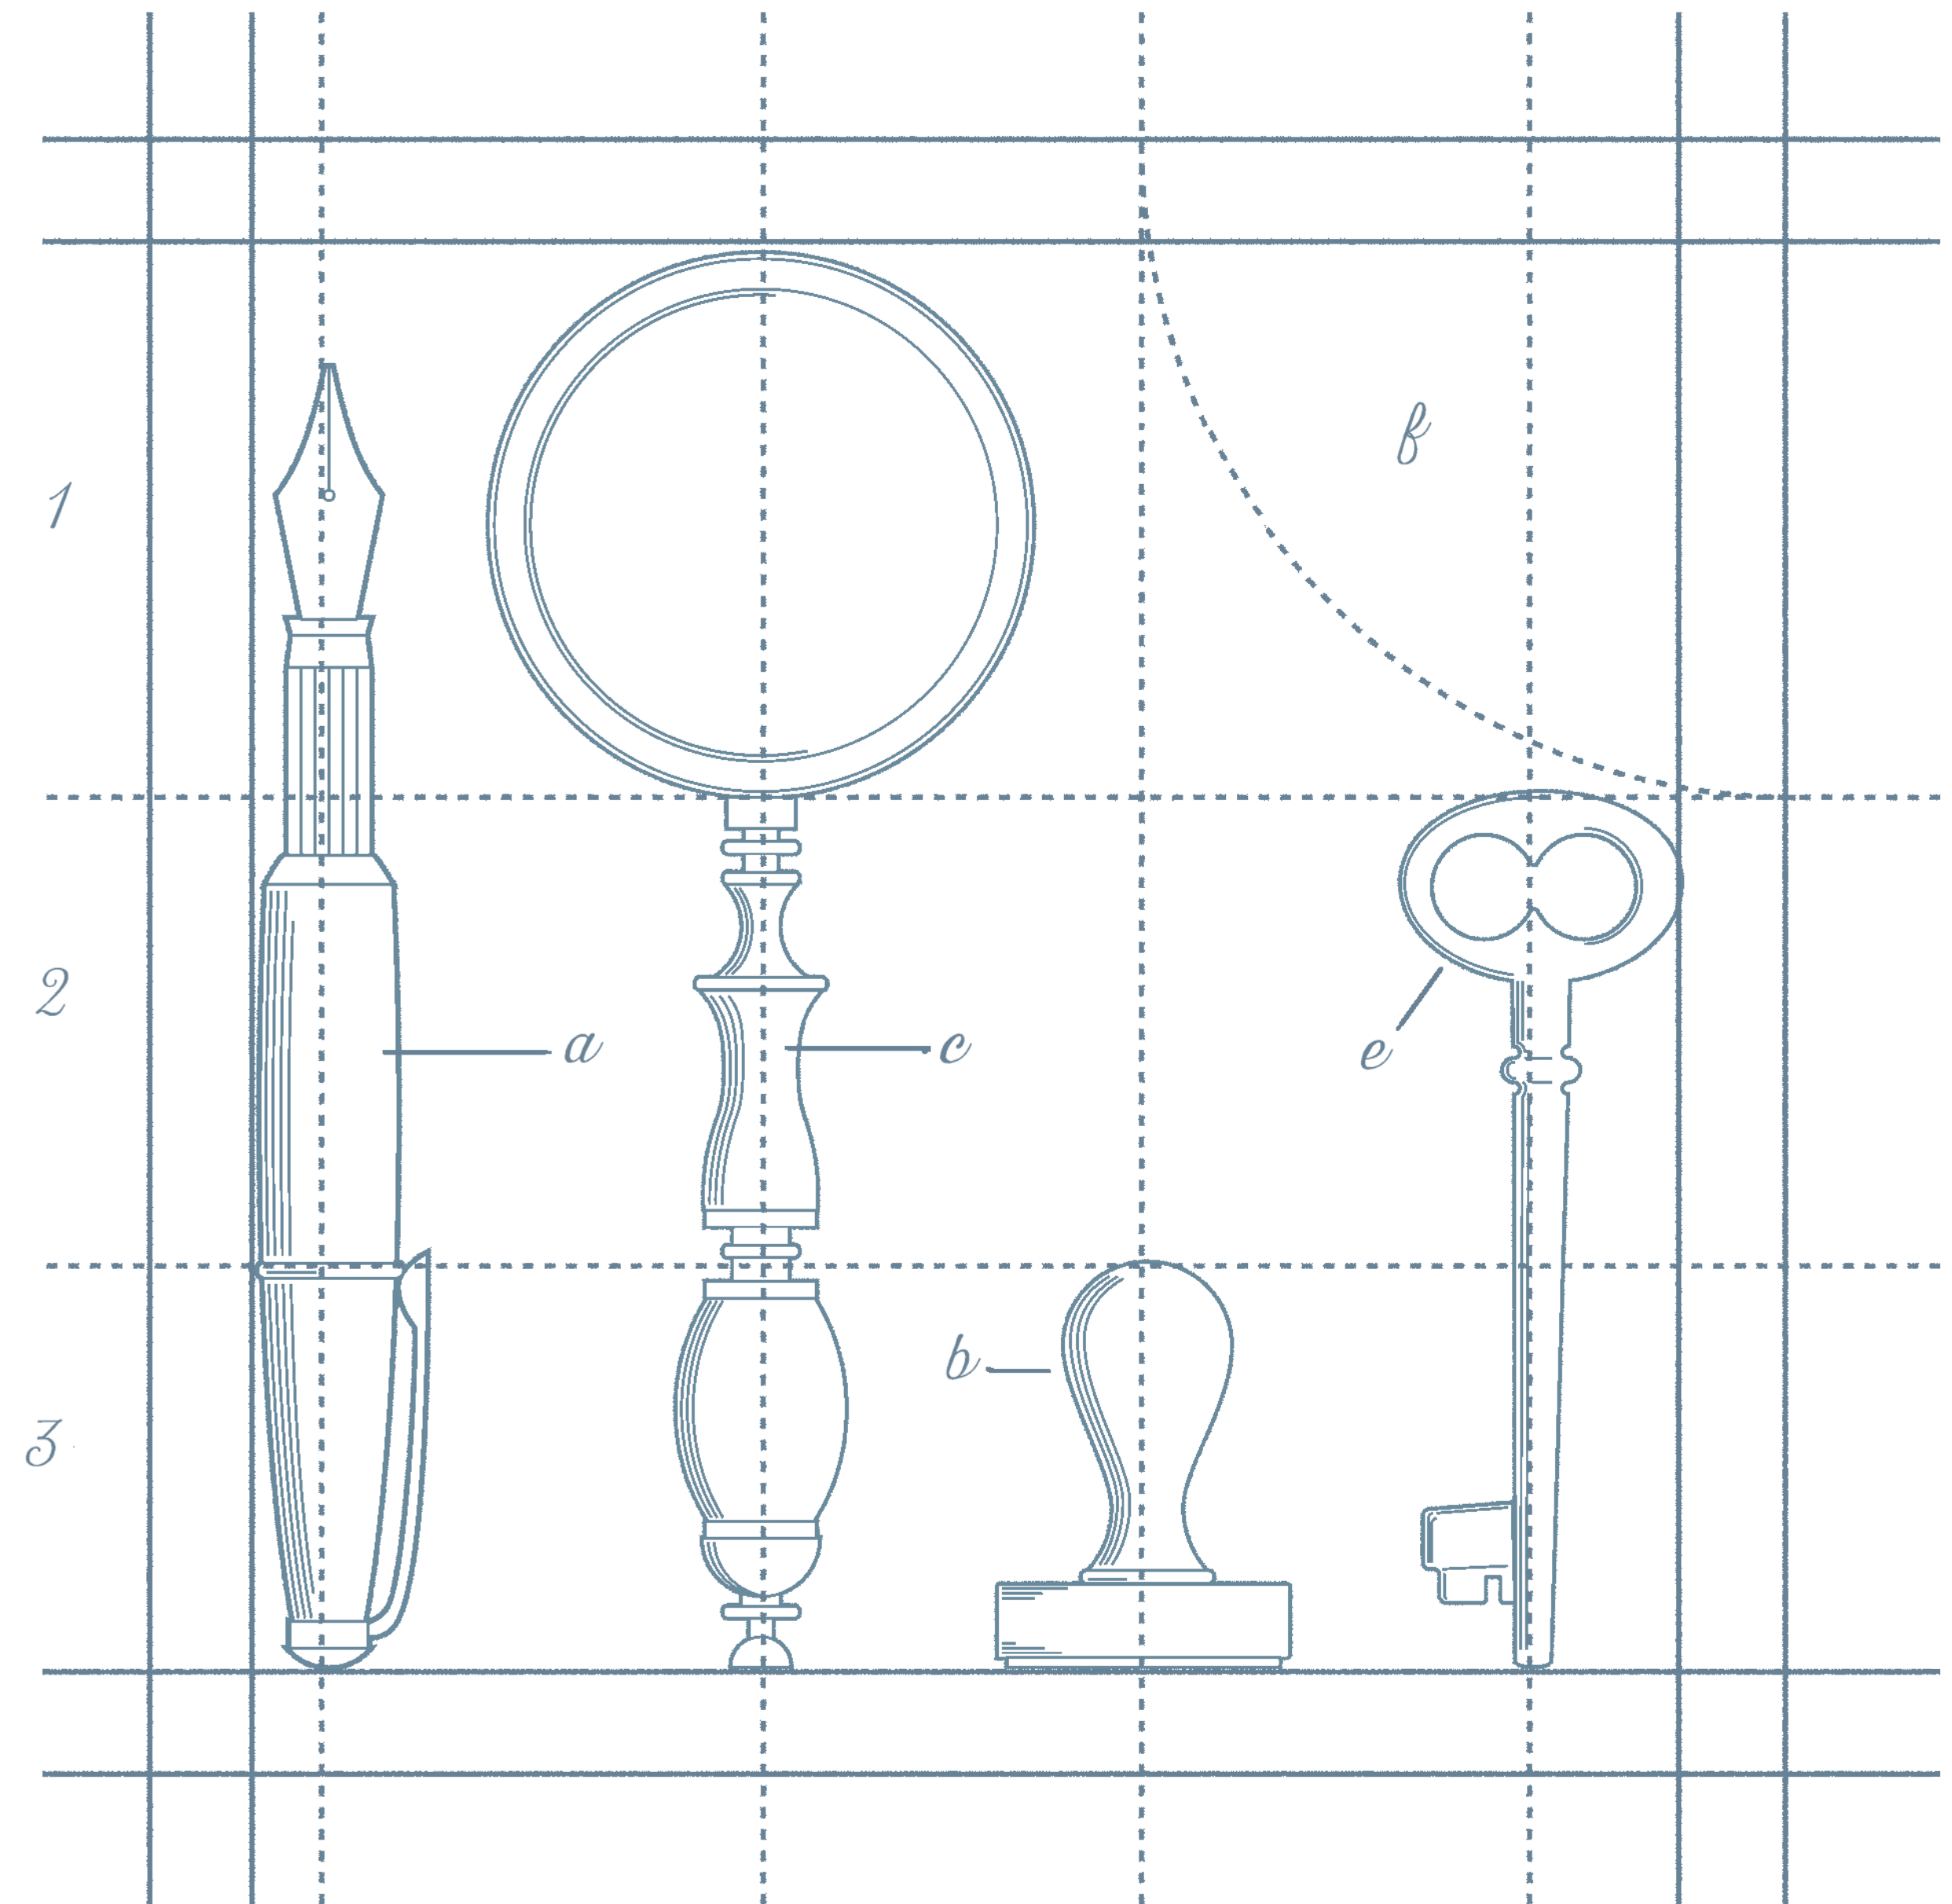

For the valuation of intangible assets, PRAXI Intellectual Property relies on PRAXI SpA professionals (Engineers and Accountants), who are equipped to satisfy the complex valuation requirements of every single project.

Comprehensive assistance

PRAXI Intellectual Property makes innovative technological solutions accessible to Clients through an extensive network of Offices.

Client support also includes training activities designed to transfer and develop ideas and skills.

A well-established selection of international partners allows PRAXI Intellectual Property to offer a consistent service across the globe.
